WHO WE ARE

We are an Alaskan owned and operated full service mechanical and plumbing contractor serving Alaska since 2012. The clients that we have served include homeowners, small businesses, schools, utility companies, military housing developers, industrial processors to federal and state entities. Our projects have spanned across the state of Alaska and we have completed numerous projects outside. We have offices in Fairbanks and Anchorage. Central Mechanical is a growing company with a wide range of experience in the mechanical field.

solutions for your needs

CERTIFICATIONS

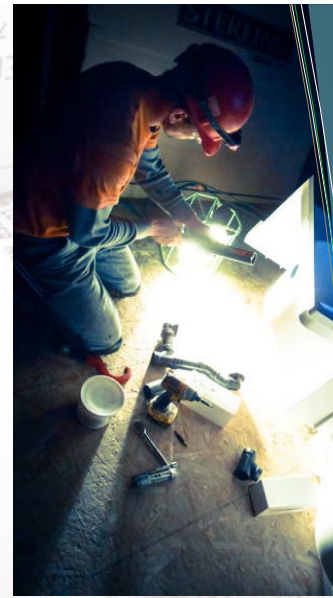

Central Mechanical has a substantial bonding capacity with an A+ rated insurance program with limits up to \$10 million. Central Mechanical is able to provide full construction services covering all trades necessary to provide a total solution. Our staff possesses a wide range of certifications including but not limited to ABPA certification for backflow prevention testing and certification, confined space entry, OSHA 30, MSHA 48, asbestos abatement, certified burner technicians, structural and pipe welding certifications.

RELATIONS

"Central Mechanical strives to maintain the highest levels of professionalism, integrity, honesty and fairness in our relationships with suppliers, contractors, associates and clients. We want to be an asset to those whom we work with and to our community."

SATISFACTION

"We work hard to ensure client satisfaction in all areas including safety, performance, logistics, cleanliness and attention to detail. It is our goal to ensure success of the project by completing on time and within budget, while providing the best possible service and workmanship."

SAFETY INTEGRITY QUALITY

SUCCESS

"To be successful in our work, we foster a safe, positive work environment that encourages professional growth and development of our team. Being positive, building a strong team and working safely contributes to our success as a company and your success as a client."
